YOUR MASTERPIECE IS NOT FINISHED WITHOUT VAN MILLWORK.

“Van Millwork provides us with sophisticated interior trim and stair part options for our high end custom home buyers as well as great on-site service.”

- ▶ Fine builders appreciate the importance of fine interior millwork. The trim is the finishing touch that illustrates a builder’s commitment to quality and craftsmanship. Trim also has perhaps the greatest influence over how visitors perceive the interior of a new house. That’s why, for over 35 years, New England’s fine homebuilders and discerning homeowners have trusted Van Millwork to create their interior finish.

Van Millwork has an unmatched reputation for quality. Whether a piece is from our custom shop or our extensive in-stock collection, it’s milled to the strictest quality standards.

We’re equally well respected for our service. Van representatives are interior finish specialists who provide accurate take-offs and innovative solutions that allow you to create maximum impact while keeping within your budget.

*“Our finish carpenters prefer that Van supply

GOOD SERVICE IS AN ART WE PRACTICE EVERY DAY

▸ At Van Millwork, we are as committed to the quality of our service as we are to the quality of our products.

98% to be exact — are shipped complete.
 - Most (this also sounds weak) back orders are shipped within 24 hours.
 - We make deliveries into the house, when you're ready, five days a week.

And remember, all Van Millwork representatives specialize in interior finishes and are familiar with our entire offering. Whether you're looking for ideas or for a specific product, don't hesitate to ask a Van representative for assistance.
